

# ATTENTION

## Pilots & Aviation Enthusiasts

Connect your Pilot Headset to your PC!...

...And use it with **Flight Simulator, iTunes or even Skype**

INTRODUCING THE

# Flight Sound X

ADAPTER...

...A **HIGH QUALITY** USB SOUND CARD, CUSTOM MADE FOR GENERAL AVIATION HEADSETS.

Designed to be as easy as possible - no additional software, no batteries, no external power sources - just one USB cable.

## WHY FLIGHT SOUND X?

- **FUNCTIONAL** - Use your own aviation headset for flight simulation training scenarios
- **VERSATILE** - Get added duty from your headset by using it with programmes like Skype
- **REALISTIC** - Bring the realism of your virtual flight environment to unprecedented levels!
- **SO EASY** - Just plug & play...and you're ready to go!

### A great accessory for any pilot!

"This thing is perfect. I ordered it, and not much later it arrived at my door. Within 30 seconds (literally) I was using it. It just worked!"

David (USA)

"A great unit with great audio, easy to get running and works perfectly. My on-line buddies all comment on the audio quality. Great piece of gear. Thanks for turning it out" Jim (New Zealand)
